---

The K. u. K. Hoftischlerei J. W. Müller was one of the leading workshops. It regularly presented its pieces at exhibitions at the Vienna Secession and the Austrian Museum of Art and Industry. Our desk is a first-class piece of Viennese furniture from around 1900. The ornamentation is typically Secessionist and the materials used are of high quality. The quality of the woodwork is also exceptionally high. A truly special piece of furniture from the Viennese Jugendstil period.
