

LAMP STAND GUDRUN BAUDISCH WIENER WERKSTATTE CA. 1928

€9.000,00

Lamp stand with expressive head, Gudrun Baudisch,
Wiener Werkstatte, ca. 1928, marked

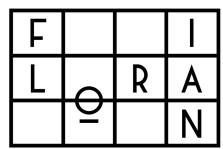

In this ceramic object, Gudrun Baudisch combines her characteristic head depictions with a sculptural lamp base. In addition, she fuses the fine with the applied arts according to the principles of Jugendstil.

With expressive, luminous color accents she decorates the woman's head, which is fluidly connected to the lampstand through the dynamic hair. Through the pedestal-like base, the entire object is elevated from the ground. Even without the addition of lamps, this high-quality ceramic object radiates a certain strength and decorative appeal.
