

LOETZ VASE DECOR PG 3/430 CA. 1903

Vase with decor Phenomen Genre 3/430 Zitrongelb
(lemon yellow), Johann Loetz Witwe, ca. 1903

Dimensions

11 × 17 cm

Our vase bears the decor called Phenomen Genre 3/430, which was designed in 1903. Its sober shape draws the attention to the elaborate surface design. Oval spots created with metal salts and warped threads rhythmically alternate and warp around the vase. These highly iridescent decorative elements stand out against the lemon yellow background, offering the viewer a colorful play of light.
