

LOETZ VASE UNIDENTIFIED DECORATION CA. 1914-1940

€3.300,00

Vase, Johann Loetz Witwe, unidentified decoration,
ca. 1914-1940

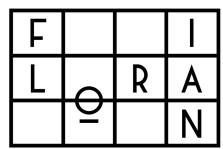

This glass artwork is a particularly elegant example from the late production of the Johann Loetz Witwe glass manufacture. Since the artists at Loetz were always open to new influences, they experimented with a variety of different decoration variations. Fortunately, a considerable proportion of those decorations could be assigned to the company without any doubt on the basis of the remaining cut patterns.

However, some decoration variants have not yet been studied unequivocally. These variants are called "unidentified decorations". Our exciting object with the triple wavy opening and the silvery-golden shimmer also bears an unidentified decoration. The stylish decoration presented here gives the impression of dynamic brush strokes on the flower calyx-like shape of this vase.
