

NESTING TABLES JOSEF HOFFMANN J. & J. KOHN CA. 1910

€9.500,00

Nesting tables, design by Josef Hoffmann, produced
by J. & J. Kohn, model Nr. 988, ca. 1910

Dimensions

42 × 56,5 × 75 cm

1905 was one of the most important years for Wiener Werkstatte. Josef Hoffmann created his most important works around that time. The reduction of the shape to functionality was one of their lead principles and brought along pioneering design pieces. Our four nesting tables, designed around 1905 and produced from 1906 onwards, follow this very idea. Crafted from stained and bent beech wood, they bear the J. & J. Kohn brand stamp. Made of beech, stained and bent by Jakob & Josef Kohn, they bear a remnant of the original company label on the bottom and a brand stamp under each nesting table.
