

SOLIFLOR VASE LOUIS COMFORT TIFFANY CA. 1910

€2.400,00

Soliflor vase with bronze base, Louis Comfort Tiffany,
Tiffany Studios New York, iridescent favrille glass, ca.
1910

The enterprise Louis Comfort Tiffany Inc. ranges among the best Art Nouveau manufactures in the US. The founder Louis Comfort Tiffany was a multitalented genius whose designs ranged from vases, desk accessories, lamps, furniture to marvellous leaded glass windows.

This vase stands out with its rich golden colour. The shape of the soliflor was particularly asked for in the time around 1900 and many different variants and shapes have been produced. In this case a carefully ornamented bronze foot was used making the glass sprout from the ground like a flower.
