Depending on the incidence of light, the harmonious combination of the elegantly curved vase body with its shimmering gold decoration displays a colour spectrum ranging from silver-yellow to violet and blue. This decoration is particularly well emphasised by the organically curved basic shape with its expressively curved, triple-folded mouth. This allows the beauty of the silver-yellow interior of the vase to be appreciated even from a distance of the vase from a distance. This outstanding work of glass art is destined for a true Art Nouveau heart.
